EDUCATION

Bachelor of Technology -BTech, Computer Science and Engineering
Sambalpur University Institute of Information Technology   **81%**   **2019-2023**
Intermediate / +2 - CBSE
D.A.V PUBLIC SCHOOL   **83%**   **2018-2019**
Matriculation /Class 10 -CBSE
D.A.V PUBLIC SCHOOL   **85%**   **2016-2017**

TECHNICAL SKILLS

- Languages: Java, JavaScript, C, C++, Python
- Web Technology: HTML, CSS, JavaScript
- Databases: MySQL, MongoDB, Oracle SQL
- Libraries and Frameworks: React.js, Spring Boot, Hibernate.
- JDBC
- REST API
- Microservices
- Node.js
- Data Structure and Algorithm

PROJECTS

Blog Application

- Project link: **Blog Application**
- The Blog Application project involved creating a dynamic blogging platform with React.js for the front end, offering users an interactive and engaging experience.
- By integrating Appwrite for backend services, including user authentication and data storage, the application ensured security and reliability in handling user information and content.
- Technology used: HTML, Tailwind CSS, JavaScript, React.js, and Appwrite

Expense Tracker Application

- Project Link: **Expense Tracker**
- The Expense Tracker Application is a sophisticated financial management system designed to help users efficiently track their expenses and manage their finances effectively.
- It features a dynamic frontend built with HTML, CSS, and JavaScript, allowing users to record expenses, view summaries, and generate reports.
- Technology used: HTML, CSS, JavaScript, Java, Spring Boot, MySQL.

Tourism Guide

- Project Link: **Tourism-Guide**
- The Tourism Guide project aimed to provide users with comprehensive information about tourist destinations.
- By integrating third-party APIs, the application offered real-time data, enriching the user experience with up-to-date details on attractions, accommodations, and travel options
- Technology used: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and REST API.

EXPERIENCE

Java full stack Developer   **May 2023-Present**
Completed 9 months of training at Jspiders JNTU and Learned core Java, HTML, CSS, JavaScript, React.js, JDBC, advanced Java, Hibernate, and Spring framework.

IFFCO   **June 2022-July 2022**
Movies Ticket Booking System

- This system likely facilitated various functionalities such as user authentication, movie selection, seat reservation, payment processing, and ticket generation, aimed at enhancing user experience and convenience.
- The project provided valuable experience in full-stack web development, database management, and user interface design, enhancing my skills in building real-world applications.
- Technology used: ASP.NET Core MVC, HTML, CSS, JavaScript, and Oracle DB.

CERTIFICATION

I am certified in Data Structure and Algorithms from Apna College.
certificate Link: DSA certification Link

SOFT SKILLS

Networking, Team Work, Critical Thinking, Problem-solving, Attention to detail, Punctual, Quick Learner
